ABOUT US

Mundada Polymers, a proud venture of the **Bai-Kakaji Group**, carries forward a rich legacy of excellence in packaging solutions. Established in 2022, the company is built on decades of industry expertise and innovation. The Bai-Kakaji Group, founded in 2004, is one of the prominent manufacturers of rigid packaging products, specializing in PET preforms and HDPE closures.

Mundada Polymers, based in Latur, Maharashtra, specializes in 10+ high-quality products, including 100% recyclable polyethylene films. With a production capacity of 9,000 metric tons annually, the company leverages advanced R&D and technology to drive innovation in flexible packaging. Focused on sustainability and global quality standards, it continues to expand across markets with a commitment to excellence, customer partnerships, and becoming a global leader in protective packaging solutions.

OUR MISSION

WE STRIVE TO BE THE GLOBAL LEADER IN PROTECTIVE PACKAGING, ENSURING SUSTAINABILITY AND CUSTOMER FOCUS.

Our mission is to deliver innovative, high-quality packaging solutions while building lasting relationships based on trust and reliability. We strive to protect what matters by providing packaging films that preserve products, ensure safety, and add value.

OUR VALUES

Collaboration

Innovation

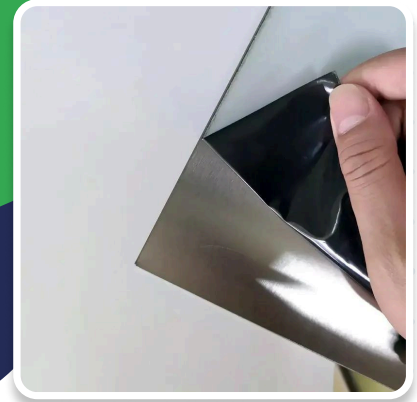

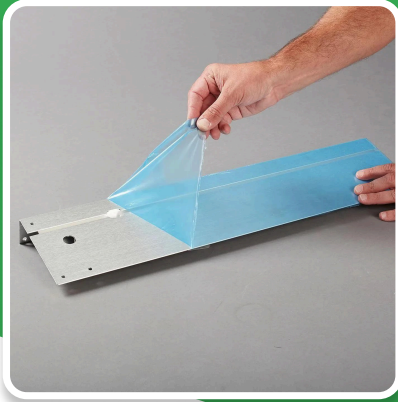

Excellence

Sustainability

1. SURFACE PROTECTION FILM / GUARD FILM / MASKING FILM

We offer a comprehensive line of surface protection films that are designed to minimize abrasion, scratching, and damage throughout the storage process as well as during the delivery process.

APPLICATIONS

- Stainless steel sheets
- Aluminium sheets, profiles and composite panels
- Glass
- Furniture
- Automotive and automobiles
- Ceramic Tiles
- Decorative laminates
- Appliance Industries etc
- Carpet

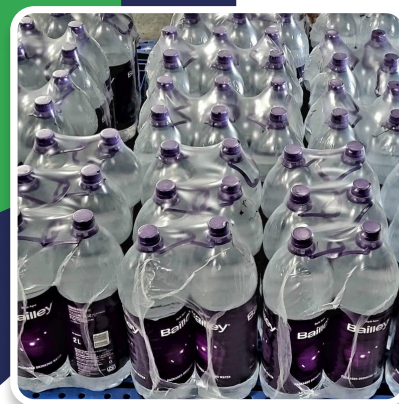

ADVANTAGES OF SURFACE PROTECTION

- Wrinkle and crease free, hence gives uniform coverage to the masked surface.
- Keeps surface / sheets bright and shiny
- Does not damage the masked / protected surface or carry away the coating along with it
- Economical and easy to use
- Easy peel off.
- Environment friendly and 100 % recyclable
- Provides weather resistance when used outside
- When the protective layer is removed, the quality of the surface is preserved without leaving any residue or glue / mark

SPECIFICATION

- Width : 1300 – 2500 mm.
- Thickness : 50 – 150 microns
- Colour : Clear / Transparent, Blue, White etc

2. LDPE SHRINK FILM

LDPE Shrink Film is mainly used for unitizing and bundling multiple units of products for better handling and ease of distribution. Our Shrink Film is also used on automatic shrink-wrapping machines. We offer customized shrink films to cater variety of customer varying on their requirements. The tight wrapping of the pack enables high stacking of packs over each other thus saving space and reduce damage in transit

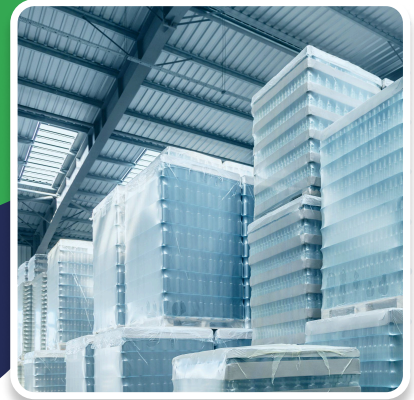

APPLICATIONS

- Beverages (cans, glass and plastic bottles)
- Mineral Bottled water / Packaged drinking water
- Food and canned goods
- Pharmaceutical ,Health & beauty aids
- Automobile & Industrial products
- Batteries
- Large & small household appliance
- Packaging materials & paper etc

SPECIFICATIONS

- Width : Upto 2500 mm
- Thickness : 50 to 150 Microns

3. STRETCH HOOD FILM

A stretch hood is a tube of film sealed on one end, which is stretched over a palletized load to secure the contents to the pallet. The film is cut to the appropriate length and heat-sealed at the top end. This type of packaging method for pallets provides many advantages, ranging from cost reductions to improved handling and marketing potential. Stretch hood films are applicable across a wide range of industries, including Chemical & Polymer, Building & Construction, Food & Drink, and Logistics & Transport. They can be used in both vertical and horizontal applications.

APPLICATIONS

- Textile / Yarn / Fiber
- Beverages
- Chemical
- Pharmaceutical
- Papers
- Building & Construction
- FMGG
- Packaging
- Lubricants industries
- Polymer industries
- Glass bottle etc.

STRETCH HOODS FILM ARE USED FOR

- Transport packaging of palletized products (primary, secondary or tertiary packaging)
- Packaging of separate products such as white goods or the like (primary packaging)
- When it is not possible to use stretch
- The primary advantage is its elasticity with high rebuilding forces.

SPECIFICATIONS

- Width : 1300 – 2500 mm.
- Thickness : 50 – 150 microns
- Colour : Clear / Transparent, Blue, White etc

4. STRETCH WRAP FILM / PALLET WRAP FILM

AVAILABLE IN 2 GRADES/ VARIETIES

1. Hand / Manual
2. Machine / automatic

HAND GRADE STRETCH FILM

High transparency with good Cling / Sticky property. This is an economy product for general purpose hand wrapping.

MACHINE GRADE STRETCH FILM

For high-speed wrapping machines of large palletized loads, the film has 250–300% stretchability and very high tensile strength. It offers excellent tear strength to protect sharp corners.

SPECIFICATION

1. Width : 200 to 1500 mm Thickness : 9 – 100 microns
2. Colour : Clear / Transparent, Blue, White, Black etc.

5. PE CLING FILM

PE cling film is widely used as a plastic wrap for food packaging, offering high clarity, puncture resistance, and good elasticity. It is microwave and freezer safe, helping to keep fruits, meats, vegetables, and salads fresh for longer while preventing small insects from contaminating the food. Unlike PVC food wrap, PE cling film is safer for health as it does not contain plasticizers, stabilizers, or carcinogenic additives that may cause health issues.

APPLICATIONS

- It offers ideal refrigeration preservation.
- It possesses high transparency and clarity.
- It is dustproof and offers high light transmittance.
- It contains no plasticizer and can be safely used in the microwave.
- After burning PE Cling film, only water and carbon dioxide will be produced.
- Suitable for cold and hot food
- It can be safely used in microwave and refrigerator

SPECIFICATIONS

- Specs: 15 / 30 / 45 / 60 cm width × 9 – 30 mic thickness
- Length / Roll Weight: As per customer's requirement
- Packing: As per customer's requirement
- We offer private labeling and can supply products as per the customer's packaging design, artwork, and branding

OTHER PRODUCTS

- STRETCH / PALLET WRAP FILM
- SURFACE PROTECTION / GUARD / MASKING FILM
- LDPE SHRINK FILM
- ALLFRESHY – FOOD WRAP CLING FILM
- MEAT / CHICKEN WRAP FILM
- STRETCH HOOD / TUBULAR FILM
- SHRINK HOOD / TUBULAR FILM
- PE MILK FILM
- VCI FILM
- ANTI-STATIC FILM
- MULCHING FILM
- CLINGE FILM
- SILAGE FILM
